**MEETINGS**

**NRM North:**
- Management committee
- Sub-committees

**Tamar NRM:**
- Management committee
- Sub-committees
  - Weeds
  - Georgetown coastal
  - Sustainable living
  - Cat management

**Neighbourhood Groups (3)**

**Tas Landcare Association**
- Management Committee
- Landcare Groups
  - Lilydale
  - East Tamar
  - Blessington

**Friends of Groups**

**Coastcare/Bushcare Groups**

**Progress Associations**

**North East Tourism**

**TFGA:**
- Board
- Environmental Policy Council
- Ag Council
- Meat Council
- Other Councils (check TFGA)
- Branch meetings
- Irrigation process: irrigators
- Delegations as individuals
- Subcommittees:
  - Firearms
  - Forestry
  - Native Vegetation
  - Wildlife/game management
  - E.g. see other?

**Government:**
- Private Forest Tas
  - Board (Chairman)
  - DIER (Minister)
  - Seminar on practice
- Dam approvals
- Tas Fire Service
- Ben Lomond Water
- Game Management/ 1080/ Weeds
- Local Government Planning Schemes
  - Policy
  - General
- Food Industry Council
- Biosecurity
- Spraying
- GMOs
- NRM Ministerial Council

**Other**
- Rural Youth
- Women in Agriculture
- Fire fighting
- Neighbourhood watch groups
- Speaking at community & other groups on NRM
- Community gardens

**Industry:**
- Wine
- Organics
- Australian Plant Society
- MLA/Meat Industry/Cattle Council
- Aus Veg/HAL
- Beekeepers Association
- Research
- Evaluation/reviews

Outcomes: Production

- Good cheap clean food and fibre (low cost for consumer)
- Issue: not real value, need high value food for Tasmania
- Farmers needs and cost of products
- Calving cows protected by stream fencing

Issues

- Food security and integrity:
  - Food testing and environmental tax
  - Same standards for overseas imports as Australian farmers standards
  - Consumer demand drives markets
  - What Landfall is doing on a Tasmanian scale
  - Integrity in Tasmanian label (brand Tasmania)
- Definition of a farmer: who is included (in the survey)

Environmental Services

- Feeding macropods/game management
- Fencing of streams (Ian Dickenson example of $6K per year value)
- Native habitat maintenance
- Shelter belts
- Weed control
- Responsible fertiliser use
- Willow removal: flooding, clean water, habitat
- Conservation cropping program: Diversification: soil quality
- Maintain productive pasture: soil health
- Ground cover at all times (less erosion and run off)
- Increased soil carbon
- Recreation
- Tree planting
- Water quality
- Maintenance of forest cover (mandatory)
- Fencing and weed control: in bush regeneration: ongoing management regime
- Built heritage
- Indigenous heritage
- Visual amenity
